

Supplies: Heavy paper or cardstock, scissors, a small plastic bag, stapler

Instructions:

1. Print on heavy paper or cardstock. Add names or writing if you like.
2. Cut out along crop lines.
3. Fold crisply along the white fold lines, indicated below, so the printed side is facing out.
4. Fill small plastic bag with candy or other treats and fold over top. Place the candy bag in the treat tent so the folded top of the bag is under the top flap of the treat tent. Pinch the top fold and flap with the bag underneath and staple closed.
5. Personalize it if you wish by adding ribbons, buttons or any other adornments.

Special thanks to Pia from Denmark, who has 4 kids, is going to school & serves as a Relief Society President in her ward.
